

Dan Xi, Ph.D.

**Program Director, Office of Cancer Complementary and Alternative
Medicine
NCI, Bethesda, MD**

Dr. Xi joined OCCAM in 2005. As program director for the Research Development and Support Program, she is responsible for overseeing and managing a portfolio of research grants, cooperative agreements, and contracts related to cancer CAM. She also conducts the NCI CAM research portfolio analysis for NCI's Annual Report on CAM.

Dr. Xi received her Ph.D. in Molecular and Cellular Biology & Pathobiology from the Medical University of South Carolina. Since then, she has been working in the fields of neuroscience and cancer at the National Institutes of Health. She has extensive research experience in high throughput technologies (e.g., microarray technology and bioinformatics), pharmacology/toxicology, as well as cellular and molecular biology.
